APPROVAL........OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the
source. It is understood that the amount of water herein granted
is only a temporary allowance and that the final water right obtained
under this permit will be dependent upon the period of use and the
average number of livestock served from the waters of this source.
It is further understood that this right must allow for a reason-
able lowering of the static water level at permittee's well due to
any other ground water development in the area. The well shall be
equipped with a 2-inch opening for measuring depth to water. If
well is flowing, a valve must be installed and maintained to
prevent waste. The State retains the right to regulate the use
of the water herein granted at any and all times but does not take
responsibility for the use of the Federal range.

....

....

....

....

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed...........0.0187.............................cubic feet per second, or sufficient water to

.......water 600 head of cattle................................

Actual construction work shall begin on or before......January 21, 1979

Proof of commencement of work shall be filed before......February 21, 1979

Work must be prosecuted with reasonable diligence and be completed on or before......January 21, 1980

Proof of completion of work shall be filed before......February 21, 1980

Application of water to beneficial use shall be made on or before......January 21, 1981

Proof of the application of water to beneficial use shall be filed on or before......February 21, 1981

Map in support of proof of beneficial use shall be filed on or before......
